09/2019 - Present

Experience

"Single integrator - UZINFOCOM", LLC — <https://uzinfocom.uz/en>

Tashkent, Uzbekistan

Full Stack Developer

04/2022 - Present

One of the most important key aspects of digitalization is the creation of a powerful base for processing, managing and storing data. For this purpose, the Single Integrator - UZINFOCOM was created, whose tasks include the creation and support of state information systems. Today, UZINFOCOM is a key enterprise in the ICT industry, implementing large-scale projects for the digitalization of the public and private sectors using modern technologies and solutions.

- Worked with Angular Material, PrimeNG, Tailwind CSS, Bootstrap, and Fuse Theme to create UI/UX and application structure for the big platform from scratch for internal services.
- Involved in enterprise microservice projects using .NET and Angular. Built highly efficient education testing systems in different architectural styles. Also, participated in educational activities within the company.
- Made a project called Online Olympiad Platform of PIIMA (President, Creative, Special schools Agency) from April 2022 to January 2022.

Microsoft Developers Community Uzbekistan — <https://www.dot-net.uz>

Tashkent, Uzbekistan

.NET Instructor

09/2022 - 01/2023

We are talking about .NET and other related technologies. Our goal is to provide a common space for all Microsoft technologies users in Uzbekistan to improve local expertise and make professionals closer to each other. We are targeting developers, designers and integrators who use Microsoft technologies as their primary stack. Public online and offline events are planned and will be promoted through local communities.

- Led restructuring of the mentorship program in course curriculum, influenced more than 10 mentees and coordinated them as foreseeable software developers.
